Artificial Intelligence Application Development and Jira

Practical – 11(M2)

Roll No.: T045	Name: Omkar Thukarul
Class:TYIT	Batch:1
Date of Assignment: 26/09/2026	Date/Time of Submission: 26/09/2026

A. Create an Automation Rule (Trigger → Condition → Action).

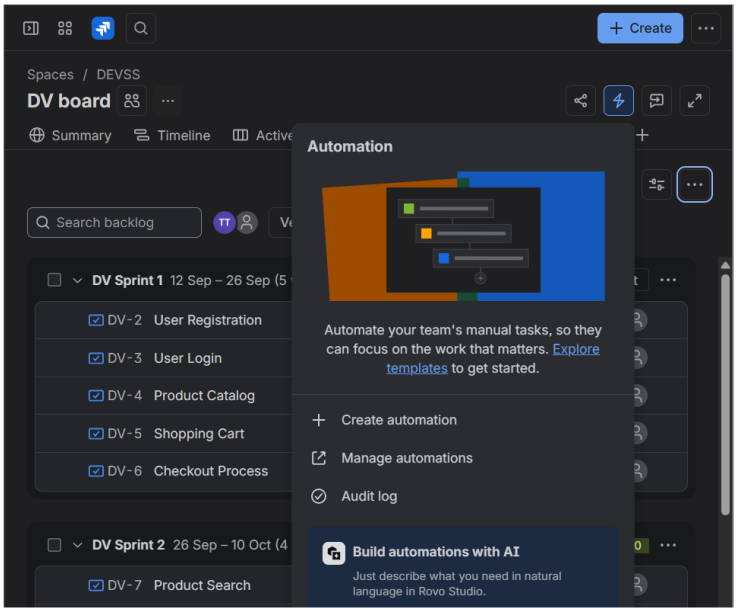

Steps:-

Step 1: Open Automation

1. Open your Jira Project.
2. Click the Automation option at the top-right of the project.

OR

3. Go to Space settings.
4. Click Automation.
5. Click Create automation.

Step 2: Start the Automation

6. Click Next.
7. Click Get started.
8. The automation flow screen will open.

Step 3: Add Trigger

9. Click Add trigger.
10. Select Field value changed.
11. In Fields to monitor for changes, select Status.
12. In Change type, select Any changes to the field value.
13. In For, select All work item operations.
14. Click Next.

Step 4: Add Condition

15. Click Add condition.
16. Select Work item fields condition.
17. Set:

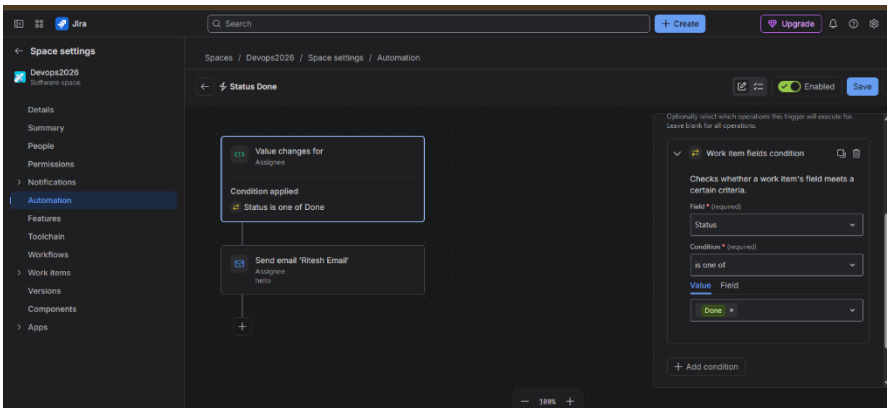

Setting	Value
Field	Status
Condition	Equals
Value	Done

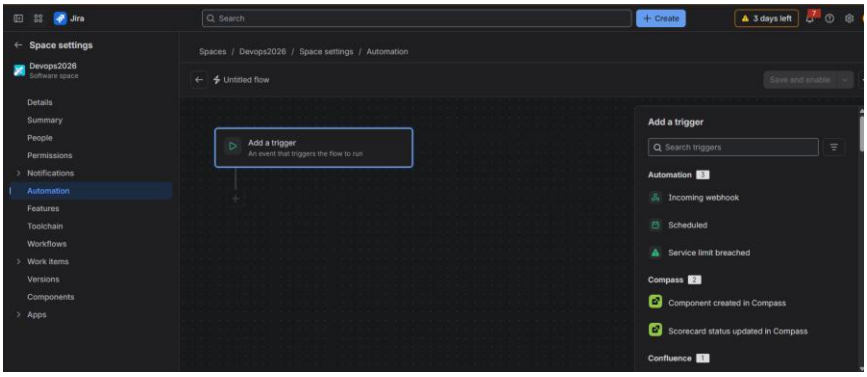

18. Click Next.

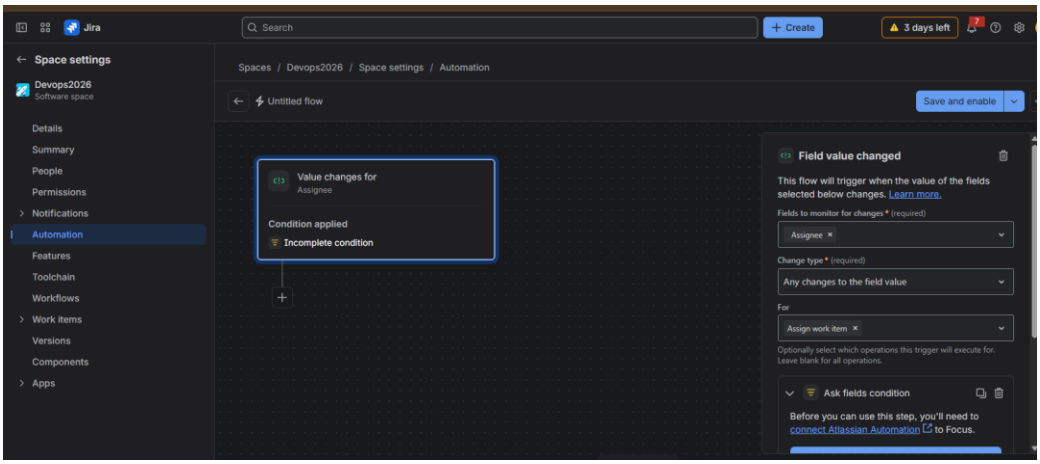

Step 5: Add Action

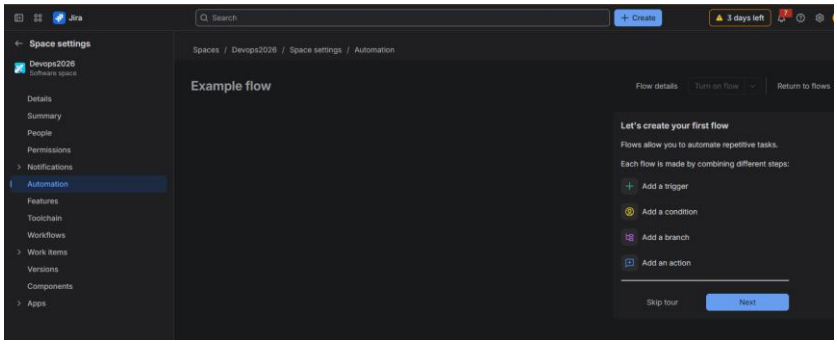

19. Click Add action / Action.
20. Select Send email.
21. Enter the required recipient email address.
22. Enter the email subject, for example Status Done.

Let's create your first flow
Flows allow you to automate repetitive tasks.
Each flow is made by combining different steps:
Add a trigger
Add a condition
Add a branch
Add an action
Skip tour
Next

B. Configure rule (e.g., When issue is moved to Done → send email / auto-assign).

C. Test and enable automation rule.

Steps

1. Open Project/Space settings.
2. Click Automation.
3. Open the automation rule.
4. Check the Trigger.
5. Set the trigger to Field value changed.
6. Select Status as the field to monitor.

7. Select Any changes to the field value.
8. Add a Work item fields condition.
9. Select Status as the field.
10. Select Equals as the condition.
11. Select Done as the value.
12. Add the required Action.
13. For email notification, select Send email.
14. Enter the recipient, subject and message.
15. Click Next.
16. Review the complete automation flow.
17. Turn on the flow.
