Artificial Intelligence Application Development and Jira

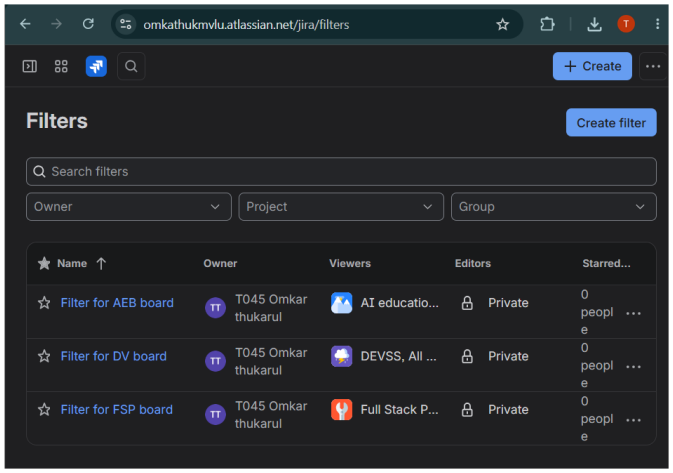

Practical – 8(M2)

Roll No.: T045	Name: Omkar Thukarul
Class: TYIT	Batch: 1
Date of Assignment: 23-09-2026	Date/Time of Submission: 23-09-2026

A. Write basic JQL queries (Status, Assignee, Priority).

1. Open Jira and navigate to Filters from the left pane.
2. Select View all filters.
3. Select the required Project from the available projects.
4. Open the filter/search options to enter the required conditions.

B. Create and save filters.

1. Open the **Filters** section and select **View all filters**.
2. Select the required **Project**.
3. Enter the required filter values according to the given requirements.
4. Apply the selected values to display the required issues.
5. Verify that the displayed issues match the selected filter conditions.
6. Click **Save filter**.
7. Enter the required name for the filter.
8. Click **Save changes** to save the filter.

9. **Result :-** A filter was successfully created and saved in Jira for future use.
