Artificial Intelligence Application Development and Jira

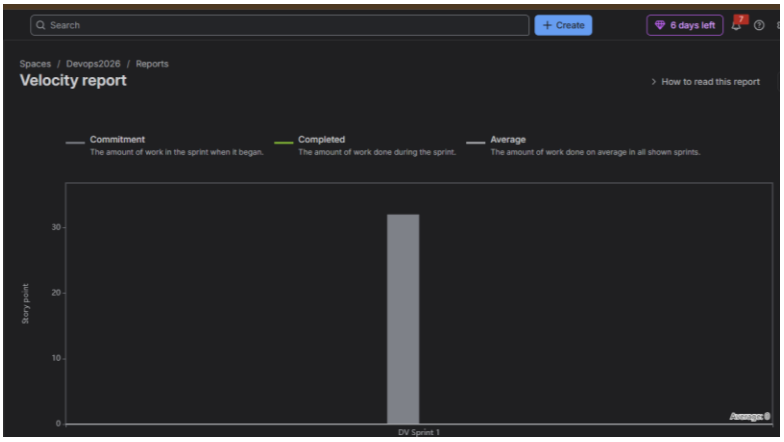

Practical – 9(M2)

Roll No.: T045	Name:Omkar Thukarul
Class: TYIT	Batch: 1
Date of Assignment: 23-09-2026	Date/Time of Submission: 23-09-2026

A. Generate Burndown Chart and Velocity Chart.

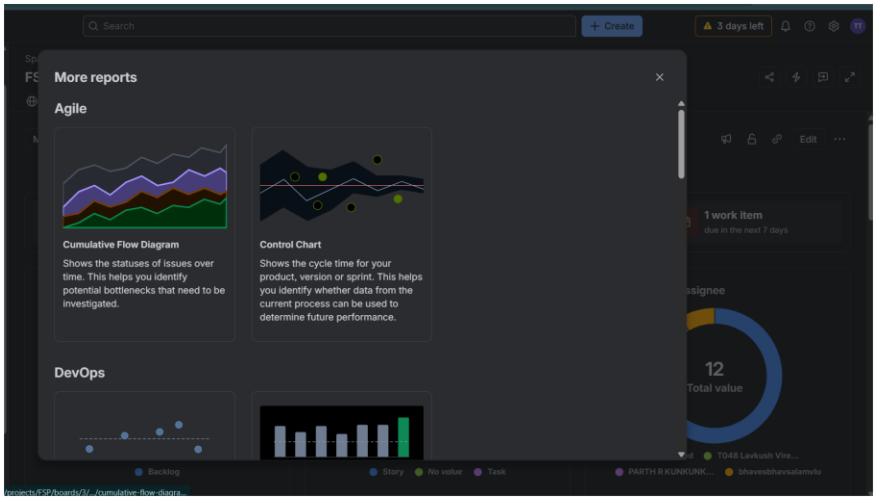

1. Open the required Jira project.
2. Navigate to Reports from the project menu.
3. Click More Reports to view the available reports.
4. Select Burndown Chart from the list of reports.
5. The Burndown Chart will be displayed showing the project's remaining work over time.
6. Navigate back to Reports and click More Reports.
7. Select Velocity Chart from the available reports.
8. The Velocity Chart will be displayed showing the completed work across sprints.
9. Result :- The Burndown Chart and Velocity Chart were successfully generated in Jira.

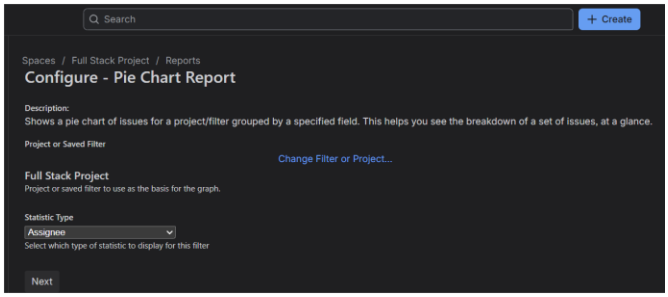

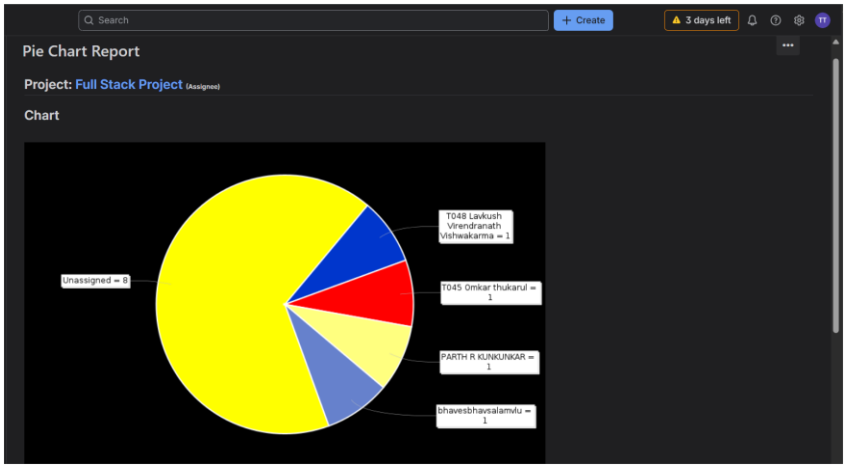

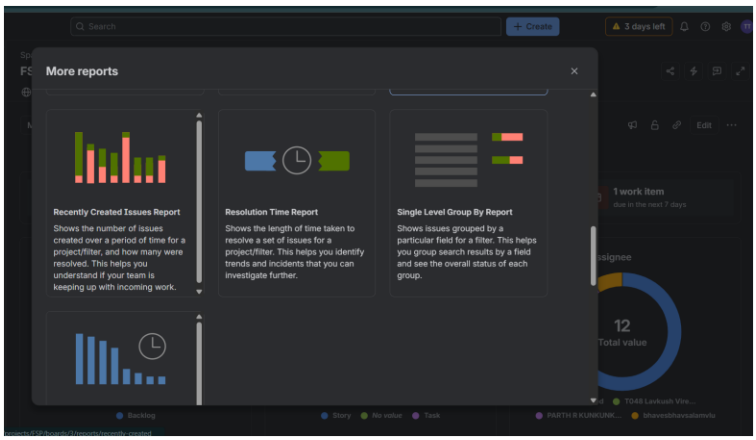

B. Create Pie Chart / Issue Statistics Report.

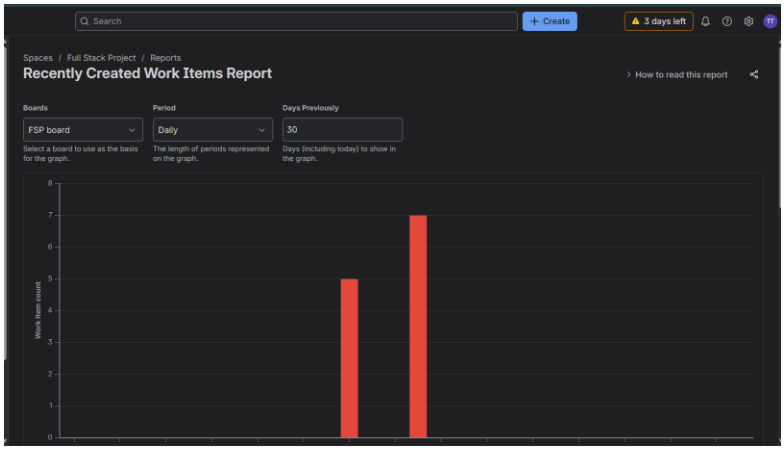

1. Open the required Jira project and navigate to Reports.
2. Under Issue Analysis, select Pie Chart Report.
3. Configure the required details for the Pie Chart Report.
4. Click Next to generate the report.
5. The Pie Chart Report will be displayed based on the selected issue data.
6. Go to Issue Analysis again and select Recently Created Issues Report.
7. Select the required Period for which the report needs to be generated.
8. The report will display statistics of issues created during the selected period.
9. Result :- The Pie Chart Report and Recently Created Issues Report were successfully generated in Jira.

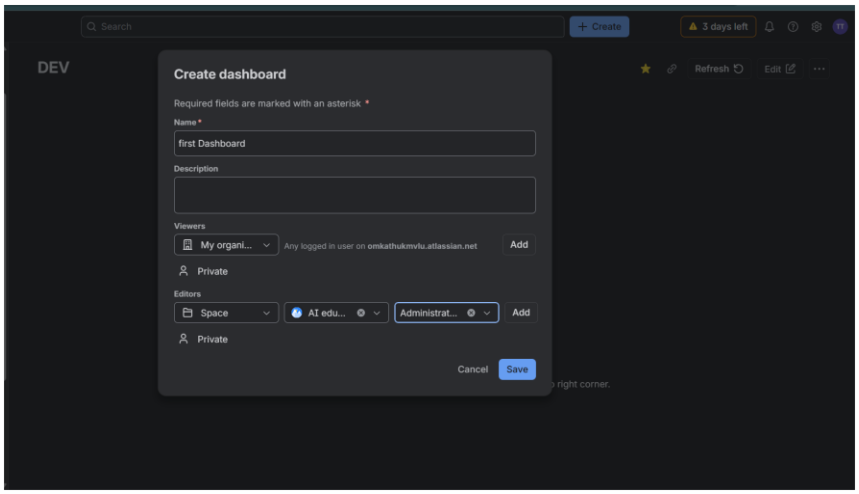

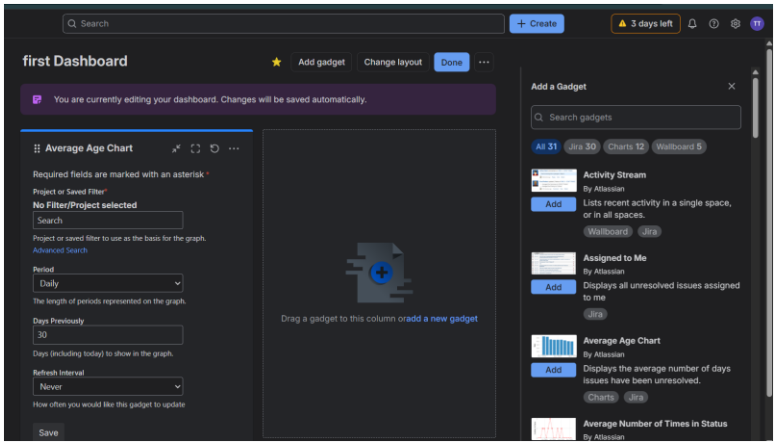

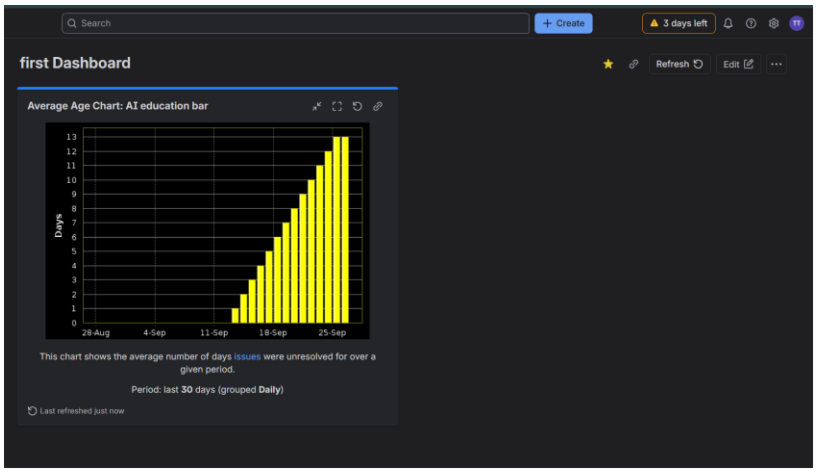

C. Create a Custom Dashboard with gadgets.

1. Open Jira and navigate to the **Dashboard** section.
2. Click **Create Dashboard**.
3. Enter the required **Dashboard Name** and other necessary details.
4. Add the required users or sharing permissions if necessary.
5. Click **Add** to complete the dashboard details.
6. Click **Save** to create the dashboard.
7. The newly created custom dashboard will be displayed.
8. Click **Add Gadget** on the dashboard.
9. Browse the available gadgets or select the required gadget from the **Add a Gadget** panel.
10. Add the required gadgets to the dashboard. Multiple gadgets can be added one after another.
11. Configure the selected gadget by providing the required details and settings.
12. Click **Save** to save the gadget configuration.
13. Repeat the process to add and configure additional gadgets as required.
14. After completing the dashboard, click **Done**.
15. **Result :-** A custom Jira dashboard was successfully created with the required gadgets, and the gadgets were configured according to the project requirements.
