Artificial Intelligence Application Development and Jira

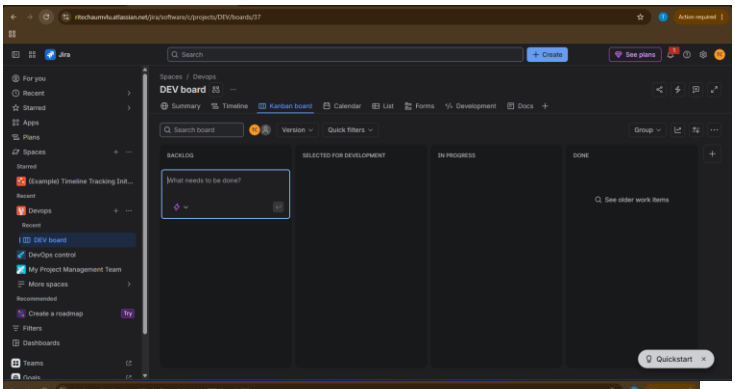

Practical – 3(M2)

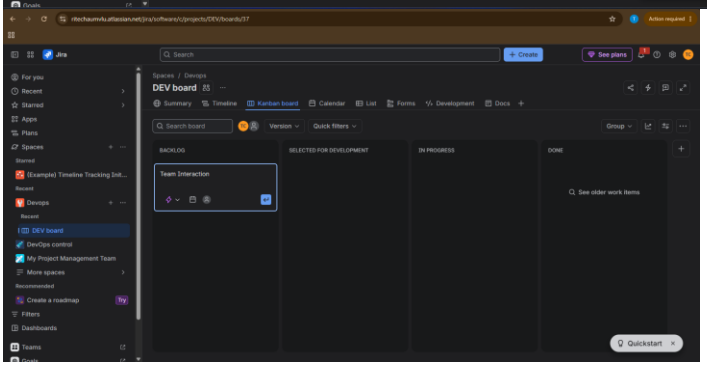

Roll No.: T045	Name: Omkar Thukarul
Class:TYIT	Batch:1
Date of Assignment: 02/09/2026	Date/Time of Submission: 02/09/2026

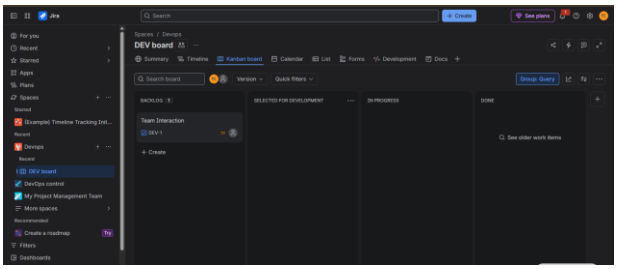

Practical 3: Issue Types & Configuration

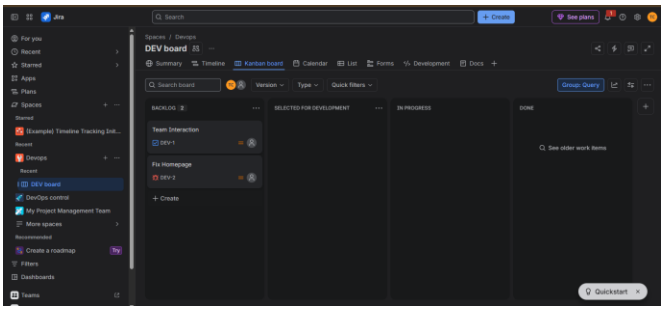

A. Create and configure Issue Types (Epic, Story, Task, Bug)

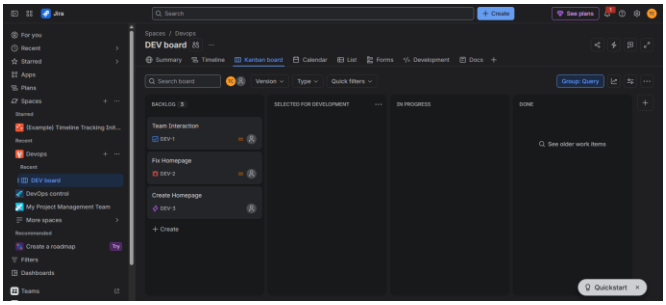

1. Open the DEV board in Jira.
2. Verify columns: Backlog, Selected for Development, In Progress, Done.
3. In Backlog, click Create.
4. Enter Team Interaction and select Task → Create.
5. Verify Team Interaction appears as a Task.
6. Create another issue: Fix Homepage → select Bug → Create.
7. Verify Fix Homepage appears as a Bug.
8. Create another issue and select Epic for a large body of work.
9. Verify the Epic is created successfully.

B. Create Components and Versions.

1. Open your DEV project in Jira.
2. Go to Project/Space Settings.
3. Select Releases/Versions.
4. Click Create Release.
5. Enter the required version details.
6. Click Save/Create.
7. Verify that the new version appears in the Version list.
8. Go to Components.
9. Click Create Component.
10. Enter the component details.
11. Click Save/Create.
12. Verify that the new component appears in the Component list.
